

BaZing Mobile UI Update

All BaZing users will receive the new user interface (UI) update on Monday, February 3, 2020. The BaZing app update includes a singular homepage view with tiles to display features and benefits. Users can update their profile photo, see their lifetime savings, access local deals, quickly contact roadside assistance, and easily navigate to other features all from the home screen.

Q&A

When will my financial institution receive the BaZing app update?

The app update will be available via Google Play and the Apple App store on Monday, February 3, 2020.

Is there any way to delay or opt-out of the update?

No, there is no way to delay the upgrade or opt-out. But keep in mind that the app update will be a better user experience for all users.

Do users have to download a separate app?

No. This is simply an update to the current BaZing app. Users do not need to download a new app, but they do need to accept the app update.

What action do I need to take?

Each user will need to accept the push notification for the app update if automatic updates are not active on their cellular device.

Why is StrategyCorps making this change?

This update will change the user interface (UI) and give BaZing users a more modern design, intuitive navigation, and better user experience overall, providing more value to you and your customers/members.

How can I get more information?

For more information, please contact BaZing Customer Service at **1.855.822.9464** or **customer.service@bazing.com**.
